I am a **workflow automation specialist** with extensive experience in utilizing no-code and low-code tools to streamline business operations and optimize processes. My solid background in **software engineering** has provided me with the expertise to excel in this field.

SKILLS

Technical Skills: Python, HTML, CSS, JavaScript, Excel

Tools: Airtabe, Make.com(Integromat), Zapier.

WORK EXPERIENCE

Automation Assistant Trainee

May 2024 - Present

Kibo School | Remote

- Used no-code/low-code automation tools like Airtable, Zapier, and Make (formerly Integromat) to automate and streamline business operations.
- Collaborated with different teams to understand their specific needs and challenges, to find creative ways to address these needs.
- Created comprehensive documentation for the automated processes I design. The documentation serves as a resource for team members to understand and follow these processes.
- Participated in the constant improvement of processes to become more efficient.

EDUCATION

Bachelor of Science(B.Sc.) - Mathematics

Mar 2021 - Aug 2024

Prince Abubakar Audu University (Nigeria)

CERTIFICATIONS

Udacity Nanodegree - Artificial Intelligence with Python
